

Invenergy Control Center

The state-of-the-art Invenergy Control Center (ICC) delivers excellence in operations 24/7, running and monitoring the company's entire North American fleet of wind, solar and advanced energy storage generation facilities.

We know sustainable energy. Make our expertise your advantage.

What Sets Us Apart

Comprehensive Capability

Internally, custom-built centralized SCADA system executes commands and communicates telemetry.

Critical Security

Primary and backup medium-impact control centers for NERC critical infrastructure protection.

Seamless Coordination

Single communications hub between operating projects and critical counterparties.

Monitoring Evolved

Invenergy is committed to uncompromising performance, 24/7, 365-days-a-year. We demand the same reliability from our monitoring technology. Our control center is equipped with the most powerful, proven system on the market, capable of monitoring the company's energy assets across North America. As a result, we are able to respond immediately to any issue.

What We Offer

Operations

- Remote monitoring and reset (WTG and BoP)
- Regulatory- and market-required testing
- Avian and bat study compliance
- Performance analytics
- Engineering support

- Power scheduling
- Outage coordination
- Cost analysis program
- Availability scheduling
- Day-ahead and real-time market operations
- Market value capturing
- Ancillary services

Complementary Offerings

- SCADA support
- Operations support
- Power/gas trading
- Power trading analysis
- Settlements
- Compliance

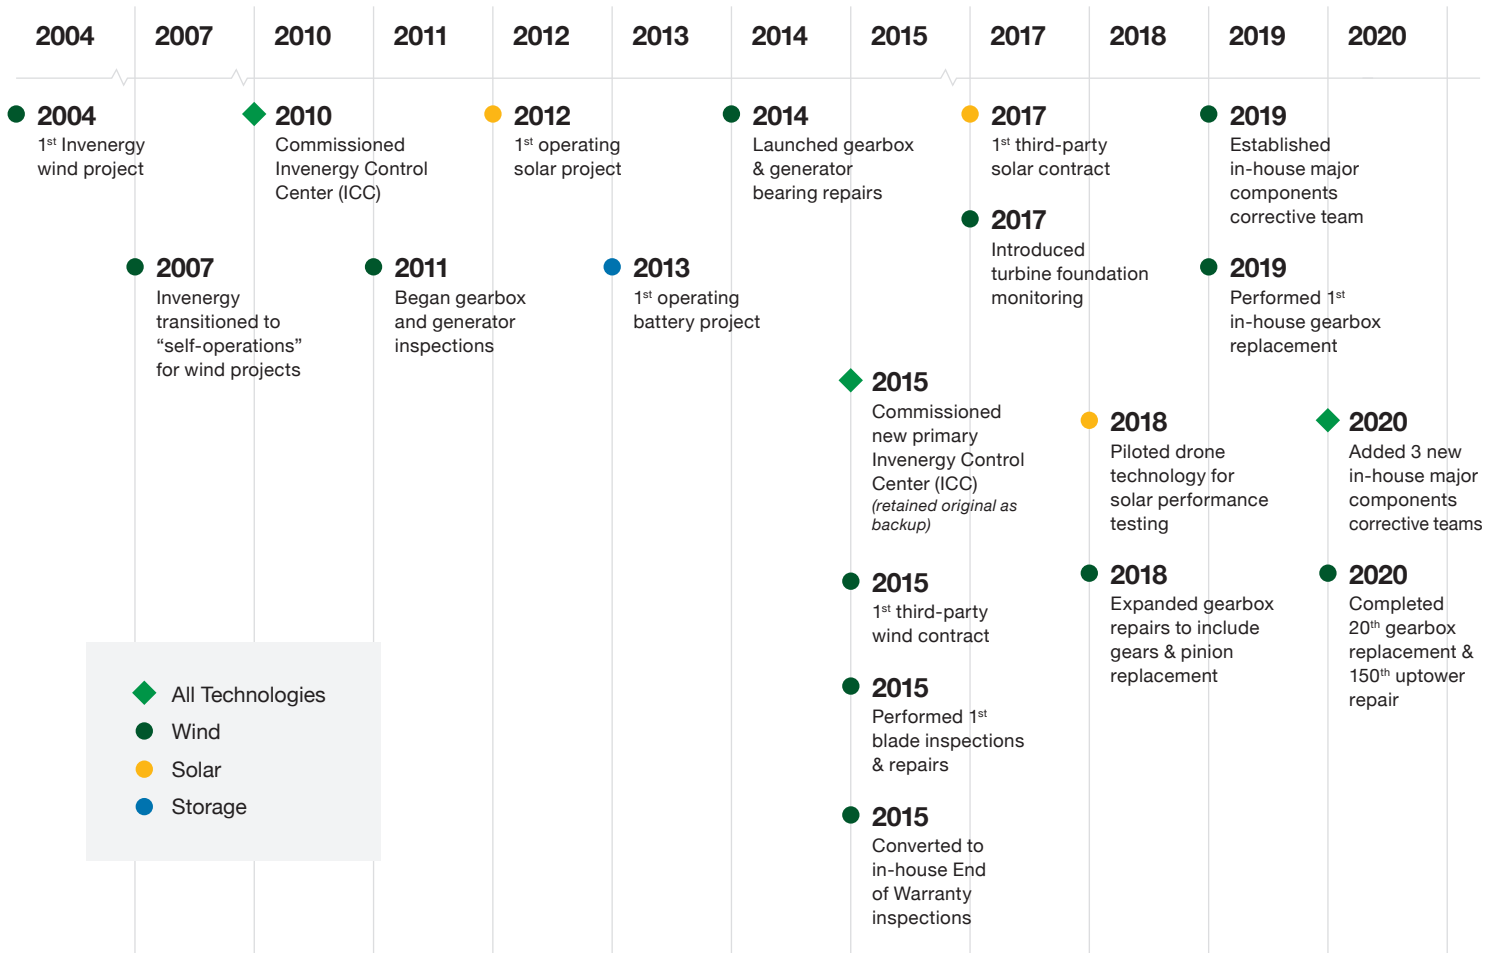

Invenergy Services

Operate with excellence.

Invenergy Services provides sustainable energy asset owners end-to-end solutions for every aspect of asset management, operations and performance analysis. Invenergy Services currently manages more than 10,000 megawatts of wind, solar, natural gas and battery storage facilities, including 1,500 megawatts owned by third-parties. With on-site technicians, a state-of-the-art 24/7 Invenergy Control Center, and a progressive safety culture, Invenergy Services helps customers operate with excellence.

Invenergy Services Timeline

About Invenergy

We move projects from the drawing board to reality.

Invenergy is a leading privately held global developer and operator of sustainable energy solutions. Powered by decades of entrepreneurial experience and unparalleled execution, we solve the energy challenges facing our customers and our communities. We are innovators building a sustainable world.
