

Operations & Maintenance

Keeping energy assets in top working condition ensures optimal performance. We operate and maintain our own facilities from day one, and we've developed best-in-class practices. Our experience ensures your assets keep functioning at their best. **We know sustainable energy. Make our expertise your advantage.**

What Sets Us Apart

Owner's Mindset

Close partnerships across project teams prioritize the lifetime value of power production and cash flow.

Independent Perspective

Maintenance flexibility, proprietary data analytics, and diagnostics maximize availability and reliability.

Sophisticated Operator

Strong, dedicated on-site technician teams are backed by centralized engineering and other subject matter expert teams.

End-to-End Project Execution Expertise

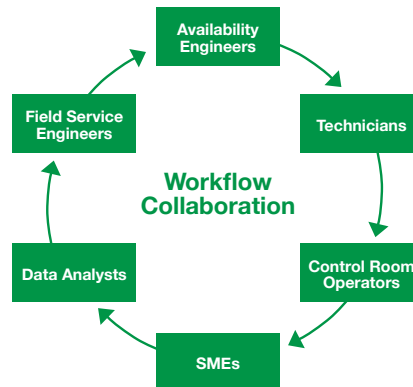

A Unified and Dedicated Team

Our O&M teams are on-site, full-time staff. Invenergy's centralized support staff allows for regular collaboration between field technicians, control center operators, engineers, asset managers and other specialists.

Our deep knowledge of technology, equipment and procedures means we optimize safety and deliver:

- 97.8% production-based wind turbine availability*
- Total O&M costs 24% below typical OEM Full Service Agreements (FSA)*

* Validated by Independent Engineer DNV-GL.

“Team collaboration is essential to achieving performance, from dedicated on-site technicians to highly specialized subject matter experts, we put the best resources in place to ensure project success.”

Kevin Schroeder
VP, Operations & Engineering

What We Offer

Broad Experience

- In-house equipment maintenance, troubleshooting and repair
- 24/7 remote monitoring and resets
- Full service balance of plant management—electrical and civil
- Owner's representative support
- Training and transitional services management

Deep Engineering Knowledge

- In-house SCADA, electrical and mechanical teams
- Subject matter experts—each major component
- Region-focused availability preservation and improvement
- Advanced operational data analysis, troubleshooting and repair

Project Assurance

- Independent engineer-audited availability and cost results
- Availability guarantees
- Comprehensive and a-la-carte structures
- Robust parts and major equipment supply network

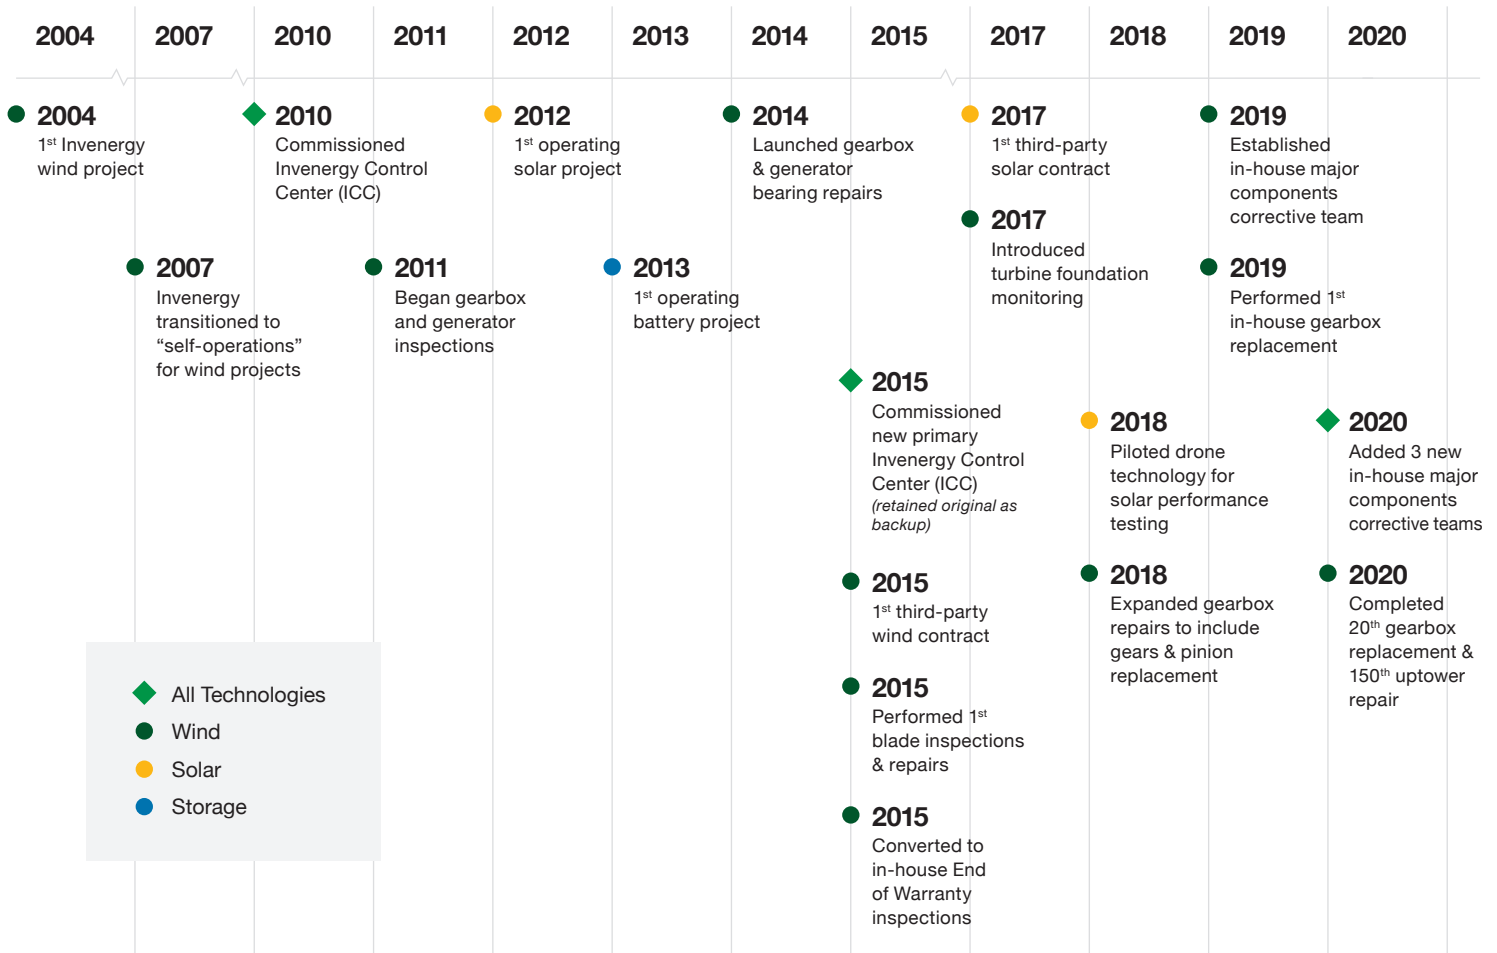

Invenergy Services

Operate with excellence.

Invenergy Services provides sustainable energy asset owners end-to-end solutions for every aspect of asset management, operations and performance analysis. Invenergy Services currently manages more than 10,000 megawatts of wind, solar, natural gas and battery storage facilities, including 1,500 megawatts owned by third-parties. With on-site technicians, a state-of-the-art 24/7 Invenergy Control Center, and a progressive safety culture, Invenergy Services helps customers operate with excellence.

Invenergy Services Timeline

About Invenergy

We move projects from the drawing board to reality.

Invenergy is a leading privately held global developer and operator of sustainable energy solutions. Powered by decades of entrepreneurial experience and unparalleled execution, we solve the energy challenges facing our customers and our communities. We are innovators building a sustainable world.
